We present the line of modern adhesives intended for various conditions of use.

The adhesives are designed for attaching polyurethane foam moulding elements to ceilings and walls, gluing these elements together, and for restoration of damaged areas in household and industrial conditions.

adhesive

multipurpose

Adhesive with excellent adhesion enables mounting moulding elements on any types of surfaces without additional fixation.

Application: the adhesive is intended for mounting of polyurethane foam products on walls and ceilings of any type indoors, as well as outdoors. The adhesive is not designed for gluing polyurethane foam products to each other.

Cartridge volume: 290 ml.

for bonding joints

Adhesive is used for strong gluing of moulding elements together. This adhesive hardens without increase in volume and can be easily cleaned up, correction is possible within 30 minutes.

Application: the adhesive is intended for gluing joints of polyurethane foam products.

Cartridge volume: 290 ml.

Tube volume: 60 ml.
